FUN FACTS

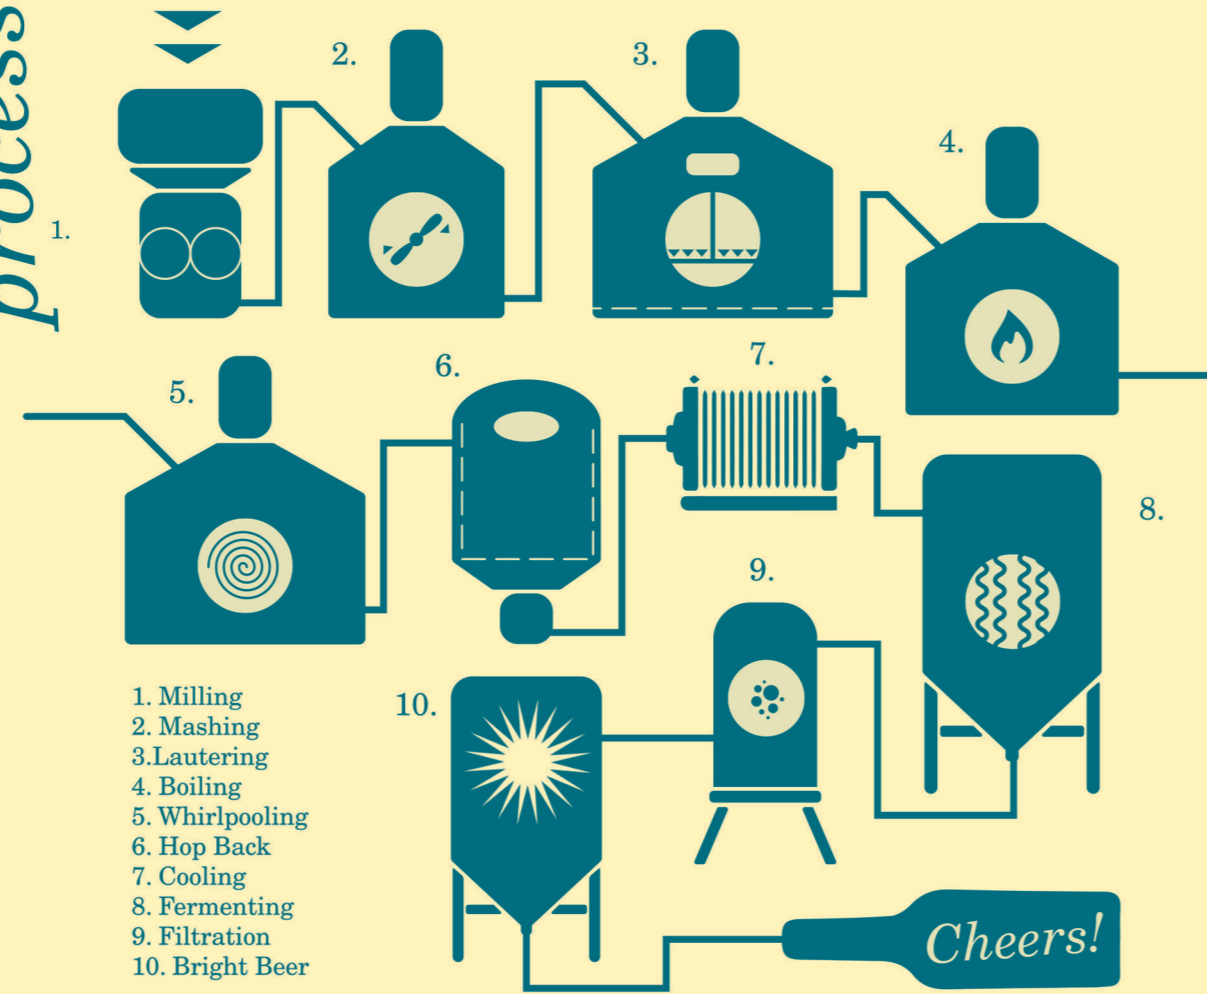

about **LITTLE CREATURES**

1. Little Creatures Brewing found the inspiration for our name in the live yeast that brewers affectionately call "Little Creatures". These single-cell organisms work hard but also have a ton of fun fermenting our delicious beer.
2. Most people notice that the cherub that forms part of our logo is proudly carrying a beer... but not many notice that he has two right feet. Go on, have a look.
3. Little Creatures is more than just a brewery, we're a family of craft beer lovers who embrace the individuality, creativity and passion of all who join our team and proudly declare themselves to be "Creatures".
4. Hops are seasonal, so we travel around Australia and the globe to source the freshest available, including the Cascade & Chinook hop cones that we hand select in Oregon.
5. We all love a good story and our brewery walls have tales of their own to tell. Our Fremantle Brewery was once a crocodile farm; our Geelong Brewery used to be a woolmill and our Hong Kong Brewery used to be a sugar & flour warehouse.

10. Bright Beer

What makes
OUR BEER
SO UNIQUE

WHOLE HOP CONES

We're obsessed with hops and we throw bag-loads of whole hop flowers in our beers at different stages of the brewing process.

UNPASTEURISED FOR FLAVOUR

Flavour is first and foremost for us. For uncompromising natural freshness and distinctively delicious flavour, all our beers are unpasteurised.

HOPS SOURCED FAR AND WIDE

Just like all fresh ingredients, we source our hops based on seasonality, working with growers in Australia, NZ, Germany, the UK and the USA

DESIGNED BY BREWERS

Well, who else really? From the brewing of the beer to the way we pour a pint, brewers lead everything we do and rightly so.

A little HISTORY

Born out of a love affair with hoppy beer by a few beer loving friends, and founded amongst the creative free thinking culture of Fremantle in Western Australia, Little Creatures is flavour loving brewery dedicated to crafting distinctive, well balanced beers, that are inspired by the creativity and individuality of its people.

In the years since we started we've grown to fulfill our potential, including building a brewery in Geelong, Victoria, so that our craft beer lovers across our eastern states were also able to enjoy the same fresh beers as those direct from the taps in Fremantle.

We produce the highest quality hand crafted beers using the freshest and finest ingredients available to us, whilst maintaining a unique, individual and inclusive style and culture.

It's our mission to continue to strive to make better beer with greater consistency each and every day.
